### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for the allowance of claims 2-8 and 11-14:

With respect to claim 11, the prior art does not teach an optical writing system comprising: at least two laser diodes; a polygonal mirror; a first correction mechanism configured to receive a first external parameter, scan data of two laser diodes by one scanning movement with said polygonal mirror, and correct, based on the first external parameter, a dot forming position of a terminating edge in a main scanning direction by shifting arbitrarily a phase of a picture element clock; and *a second correction mechanism configured to receive a second external parameter, and correct, based on the second external parameter, an amount of deviation in a data writing position along a vertical scanning direction to be approximately one laser diode line width, wherein said second correction mechanism is further configured to receive the second external parameter that includes information indicating that a type of a document is one of a character document, a photography document, a mixed character and photography document, and a non-character and non-photography document, and said second correction mechanism is further configured to enable correction of an amount of deviation in a data writing position in accordance with a first difficulty level when the information indicates that the type of document is a character document.*

With respect to claims 2-8 and 12-14, these claims are allowable since they depend on an allowable independent claim (claim 11).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Pertinent Art References***

2. Further, appropriate prior art, which is nearest to the subject matter defined in the claims, is listed in the Notice of References Cited. These prior art references, such as US20050041261, US20030112475, US6559976, and US6807320 are included because they pertain to an optical writing system or subject matter/elements pertinent to an optical writing system similar to those defined in the claims of the applicant.
